MOISÉS CORONEL

Junior Software Developer · Full-Stack · Backend

mcoronel.mpc@gmail.com · +57 314 540 55 10 · Medellín, Antioquia, Colombia · github.com/mcoronelm

PROFESSIONAL PROFILE

Junior Software Developer with active technical training in PHP, Python, JavaScript, and MySQL. Focused on building functional web applications, database design, and backend and full-stack solution development. Combines analytical skills and proven communication abilities with rapid adaptation to new technologies. Available to contribute to agile teams and collaborative development environments.

HABILIDADES TÉCNICAS

Backend	PHP (CRUD applications, REST APIs), Python (scripting, data processing)
Frontend	HTML5, CSS3, JavaScript (DOM manipulation, dynamic interfaces)
Databases	MySQL (schema design, queries, joins), PHPMyAdmin
Tools	Git, Adobe Suite, Microsoft Office
Languages	Spanish (native), English (C2 Proficient), Mandarin (intermediate)

PROJECTS

Personal Development Portfolio github.com/mcoronelm

- Full-stack project development with PHP, Python, HTML/CSS, and MySQL as part of ongoing technical training.
- Practical application of backend and frontend concepts in real-world application development exercises.
- Repository maintenance with version control documenting technical progression as a developer.

EXPERIENCE

AP Spanish Tutor & Digital Content Developer · FangZhu Language Institute *2019 – Present*

- Designed and delivered over 14,000 personalized virtual lessons for international students, adapting materials to individual learning profiles and AP exam objectives.
- Created interactive digital educational modules, improving student performance through strategies based on continuous tracking and progress analysis.
- Managed direct communication with families and academic coordinators in English and Spanish, developing technical and results-oriented communication skills.

Director of Audiovisual Arts and Design · Ministry of Popular Power for Culture *2018 – 2019*

- Led the planning and execution of institutional campaigns, coordinating teams across 24 regional offices and ensuring brand consistency and deadline compliance.
- Supervised and approved all digital and print materials, applying quality standards equivalent to software project deliverable management.
- Managed multidisciplinary workflows between creative and administrative areas, optimizing production and review processes.

Operations Manager · TESALIA EDITORES C.A. *2017 – 2018*

- Designed and executed intellectual property acquisition and copyright management strategies, coordinating end-to-end publishing pipelines.
- Developed commercialization strategies for new publications, managing distribution channels and supplier relationships.

- Led a small team's operations, optimizing processes and reducing production times through workflow improvements.

EDUCATION

Technical Labor Certificate by Competencies
Software Development Assistant
Politécnico de Colombia
2025 – In progress

Bachelor's Degree in Audiovisual Arts
Major in Editing and Post-Production
Universidad Nacional Experimental de las Artes
2014 – 2022
